<p>* Please note that some teams only have one female player! We are going to try something new this season due to the shortage of female players. Teams will now play with 4 males on the field and 1 female. That is also the reason for teams having 7 male players rostered this season.</p> <p>* Although there will be 1 female playing on the field, females are still allowed to pick up a sub if they wish regardless if the other team has 2 females.</p> <p>* There will also be a tournament at the end of the season, which will put us ending this season on December 10th.</p>
